DISCUSSION SUMMARY:

Subject 1: Introduction

- 1) Pete Rossbach, USACE, opened the meeting by welcoming everyone.
- 2) Pete transferred title as Chairman for the UFGS Working Group and SI-CCCB Chairman to Frank Der, NASA, beginning January 2010.

Subject 2: Review Prior Action Items

- 1) List of past action items were distributed to the attendees for status.
- 2) Each item was reviewed and commented on for posting with the meeting minutes.

Subject 3: IHS Contract

- 1) The Department of Defense (DoD) Contract with Information Handling Services (IHS) to update the UMRL ended September 30, 2009.
- 2) New Contract was awarded to MadCad.
- 3) MadCad and IHS will work together, but it is unclear as to what extent.
- The <u>Department of Defense Non-Government Standards</u> can be accessed from the WBDG web site.
- 5) MacCad was informed not to provide ASTM information to the DoD. As a result NAVFAC is researching and will provide updates to DoD and the UFGS Working Group.
- 6) Past versions of documents can be obtained through MadCad, not IHS.
- 7) Carl Kersten will be meeting with MadCad and will report the results.
- 8) IHS provided an Excel spreadsheet under the previous contract therefore, MadCad should do the same.

Subject 4: Master Text Tasking – FY10

- 1) Richard Hungate provided updates for FY10 Master Text tasks.
- 2) Merge Carryovers
 - a) 21 13 xx Fire Suppression Sprinkler Systems (Group #41)

- i) 40 17 30 Welding General Piping
 - (1) No comments received
 - (2) Approved to post
- 3) CMS/CCR New Section Requests (PROJNET)
 - a) The UFCs will be moved over into the new system first, followed by the specifications
 - b) 80% of the specifications in the current CMS/CCR System are outdated
 - c) NASA will receive funding to clean up the CMS/CCR system in order for the specifications to be moved into the new system
- 4) RCB&EA
 - a) There are four new Sections
 - b) The Tailoring option was changed to indicate RCB&EA and changes were made to the General Note
 - c) If USACE doesn't respond, proceed with posting
- 5) New UFGS COBIE Section
 - a) This should be coordinated in order not to duplicate effort
 - b) NASA directed Richard Hungate to proceed

- 6) UFGS Painting Sections
 - a) Majority of the work here at KSC is maintenance and renovations
 - b) USACE uses a Service Contract
 - (1) UFGS Spec Sections are not used for maintenance. Maintenance is handled by their Operations and Maintenance division
 - (2) Most of the Corps work is new construction
 - (3) Could be used when for "bridge painting"
 - (4) USACE has no objection to using the Sections but it isn't normal operation. The Corps could begin to take advantage of these Sections since they are available.
 - (5) The work on these sections are being driven by FedGreen
 - (6) Free training for SSPC is available until June 2010
 - c) FedGreen
 - (1) Funding and tasking will determine whether to proceed with the updates
 - (2) Richard Hungate will synchronize the effort with the UFGS
 - d) The UFGS Working Group will review the proposal for a New "Insulated Concrete Forms" section, although this effort is not a high priority do to funding.

Subject 5: Formatted Table Implementation

- The Database Managers were scheduled to incorporate Formatted Tables throughout the UFGS as soon as a ThinApp version of SpecsIntact that supports the new tables was released. The Technical Support team has received several calls in which the NMCI Customers were reluctant to run a ThinApp version because it doesn't appear on NMCI's approved list.
- 2) ThinApp doesn't require an installation, although it is an executable.
- NAVFAC has information posted for <u>NMCI users</u> on the WBDG Web Sites Department of Defense (DoD) page listing three options they can use to access the latest version of SpecsIntact.
- 4) The Working Group members were not sure whether NMCI policy allows their customers to run the ThinApp version, therefore cannot be resolved at this meeting since Carl Kersten was unavailable to provide guidance.
- 5) The UFGS Working Group stated there should be an NMCI policy to clarify this issue.
- 6) The latest version of SpecsIntact has not been certified by NMCI.
- 7) SpecsIntact has to obtain DoD certifications from each Agency because each Agency has their own requirements.
- 8) Jim Whitehead is currently working with the USACE Certification team to see about Certifying SpecsIntact "4" so that each minor release does not have to be re-certified.

- 9) The Army Knowledge Online has the Certificate of Networthiness and he will forward it to the SpecsIntact Team.
- 10) Pete stated that the Technical Support Desk should direct the <u>ACE-IT</u> people that are having difficulties to him.
- 11) At this time, the UFGS Working Group decided to not proceed with the implementation of formatted tables throughout the UFGS until NMCI approves a version of SpecsIntact that will support the effort.

Subject 6: Internet Based Database for Tracking UFGS

- 1) Sheron Belcher and Sandy Wood presented the Internet Based Database that is being designed for tracking the UFGS changes.
- 2) The database was developed using SQL and Visual Studio.
- 3) The database will replace the Cumulative Change List that is located on the WBDG Web Site. Currently, the file is manually updated by the UFGS Database Coordinator.
- 4) Sheron and Sandy will meet with Bob Payne to see if NIBS will be willing to place the new database on their server making it available to the general public.
- 5) The Database Coordinator's will have administrative rights to the database for posting the quarterly updates.
- 6) Sheron will update the UFGS Working Group at the Next Meeting.

Subject 7: Submittal Paragraph Note

- 1) The problem with the Submittal Paragraph Note has to do with Design Build requirements.
- 2) The recommendation is to use one digit designations for "Design Build Classifications" rather than two digit designations. The Designations are as follows:
 - a) "D" following a submittal item (instead of "G") indicates that the submittal requires Designer of Record approval (DA)
 - b) "C" following a submittal item (instead of "G") indicates that the submittal requires Government Conformance Review of Design (CR)
- 3) Jim Whitehead has contacted Haskell Barker to discuss this issue. Haskell Barker stated that the one digit codes used by SpecsIntact can be converted into the two digit classification code the RMS system uses therefore, no changes to the SpecsIntact software would be required.
- 4) The UFGS Working Group agreed to utilize a single letter classification code and modify the Submittal Paragraph General Note defining the approved classifications.

Subject 8: UFGS Tailoring Options

- 1) As requested by the UFGS Working Group, Cheryl Fitz-Simon provided a list of the Tailoring Options used throughout the UFGS.
- 2) The board will provide definitions for these options so they can be published on the SpecsIntact Web Site Knowledge Base as well as Online Help.
- 3) Make Agency specific Tailoring Options uniform throughout the UFGS.
 - a) Navy Regional Tailoring Options should begin with Navy, not "NAVFAC"
 - b) Army uses "Army" not "USACE"
 - c) NASA uses "NASA"
- 4) Change Tailoring Option for Construction to Design-Bid-Build
- 5) Tailoring Options cannot contain slashes "/" separating the tailoring options
 - a) Tailoring Options must be nested for example:
- 6) Tailoring Options must be "Uppercase"

Subject 9: Agency Quality Control Sections

- 1) There are Sections that have been unified that were originally Navy Sections.
- 2) The Section Titles should not use Agency names:

```
01 45 01 USACE QUALITY CONTROL

01 45 01.10 USACE QUALITY CONTROL SYSTEM (QCS)

01 45 02 NAVFAC QUALITY CONTROL

01 45 02.10 NAVFAC QUALITY CONTROL FOR MINOR CONSTRUCTION

01 45 04 NASA QUALITY CONTROL
```

- 3) Change Section Titles and Numbers as follows:
 - a) 01 45 01.10 10 QUALITY CONTROL SYSTEM (QCS)
 - b) 01 45 16.13 10 CONTRACTOR QUALITY CONTROL
 - c) 01 45 02.10 20 QUALITY CONTROL FOR MINOR CONSTRUCTION
 - d) 01 45 16.13 20 CONTRACTOR QUALITY CONTROL
 - e) 01 45 16.13 40 CONTRACTOR QUALITY CONTROL
- 4) Add Tailoring Options for the "Quality Control" Section
- 5) Change Section 01 45 02.10 to 01 45 02.10 20 and Title to "Quality Control Minor Construction"
- 6) Changes shall be implemented in the February 2010 release.

Subject 10: UFC 1-300-02

- 1) Steve Freitas presented updates that were made to the UFC 1-300-02.
- 2) Referencing IHS and MadCad.
 - a) Paragraphs Referencing IHS or MadCad change to "<u>Department of Defense Non-Government Standards Access</u>" and add the link from WBDG.
 - b) If there are conflicting acronyms use the acronym approved by the database manager.
 - c) 2-2.7 Change underscribed characters to underscore characters.

	_			
(1) Change	e ([]) to ((i.e.	[])

- d) 2-2.8 Tailoring Options
 - (1) Common place to reference when creating Tailoring Options for consistency throughout the UFGS
- e) 2-2.9.4
 - (1) Fix
 - (2) Add paragraph for Design Build Classifications

Subject 11: MIL-STD-3007F

- 1) Steve Freitas presented updates that were made to the MIL-STD-3007F.
 - a) Updates to the Table of Contents to reflect the revisions

Subject 12: PROJNET/CCR

- 1) Pete Rossbach provided status on the new CCR System being developed by NIBS. This system will replace the PROJNET/CCR System.
- 2) The CCR system within PROJNET will be abandoned in place.
- 3) The UFC's will be incorporated first followed by the specifications shortly afterwards.
- 4) Pete stated that he would fund the effort to clean up the CCRs from Projnet to be incorporated in the new system.
- Sheron Belcher will see if the Huntsville District would be willing to undertake this effort.
- 6) The UFC will be released by the end of the calendar year.
- 7) The next release is scheduled for February 2010.
- 8) The new specification template will be available through the new system.
- 9) This system was designed to manage the history for all types of documents UFGS Specifications, UFS, EISA, etc.
